## PROGRAMMING SKILLS

---

Proficient in: Html, CSS, Sass, Bootstrap, JavaScript, ReactJs, NodeJs, Redux, Git/GitHub, Firebase, SQL  
Familiar with: Angular, jQuery, C, C++, and NoSQL

## WORK EXPERIENCE

---

**Programmer Analyst Associate - Full time**, Baycare, Clearwater, FL January 2022 - Present

- Worked in an 18-person team, collaborated closely with two programmer analysts Sr and one solution architect Sr
- Communicate with users to add, delete, edit tables and develop complex SQL queries to fetch data from the relational database (Oracle) based on the user's requests
- Research and analyze to retire old and unused 200+ tables, views, and procedures in Oracle Server
- Rewritten and migrated 1000+ tables and views from Oracle to Snowflake

**Software Analyst Intern**, MDFiTech, New York City, NY July 2021 - August 2022

- Successfully designed, developed, and deployed a comprehensive ReactJs, and Redux web application
- Worked with two back-end developer interns to create an Angular user interface, able to identify problems and bugs in the code and quickly resolve the problem
- Contributed, collaborated with the team using Git/Github, communicated effectively with colleagues from different backgrounds, and built close relationships

**WebEOC Developer Intern**, Pinellas County Emergency Management, Largo, FL July 2021 - January 2022

- Created, Updated, and Edited WebEOC boards using Html, CSS, and JavaScript
- Communicated with supervisor ( WebEOC Info Specialist) to plan projects and fix errors

**Global Tech Programs**, University of South Florida, Tampa, FL May 2021 - August 2021

- Successfully worked individually, and collaboratively in a small group of three people
- Effectively used Html, CSS, and Bootstrap to structure, and style web pages and created responsive designs
- Created a series of games using JavaScript and APIs, emulating a real-world internship environment

## PERSONAL PROJECTS

---

**Food and Drink E-commerce Site** January 2022 - June 2022

- Researched, designed, and created a completed full-stack e-commerce website using Html, CSS, Sass, Javascript, ReactJs, NodeJs, ExpressJs, and MongoDB
- The app allows users to log in, search for food, check out, read others' reviews, write comments, view payment history, and change user profiles by using API to connect front-end, back-end, and database
- Fixed bug, tested and deployed the e-commerce site to Firebase and Heroku successfully

**Boba Tea Website** August 2021 - September 2021

- Designed, developed, optimized, and maintained a local business website with ReactJs, Redux, and JavaScript
- Consulted with clients to manage the process, outline website goals, and improve site functionality

## CERTIFICATE

---

**Foundations of Leadership**— the National Society of Leadership and Success November 18, 2021

**Responsive Web Design** - freeCodeCamp October 31, 2021

**Web Development Program** – the University of South Florida, Tampa, FL September 7, 2021
